

## **Some key statistics kept from you by racist, lying mainstream politicians & media**

### **“Annual probability of death”:**

1/1,000,000 (0.0001%) – from Muslim-origin state terrorism; electrocution; or shark attack

1/100,000 (0.001%) – from a family member or acquaintance

1/10,000 (0.01%) – from a car accident

1/1,000 (0.1%) – from smoking-related causes; also the annual risk of under-5 year old dying or dying from a medical error in an Australian hospital

1/100 (1%) – for a European dying (0.7% for a White Australian)

### **More “Annual death rate” stats:**

0.7% (White Australia) and 10% (Australian POWs of the Japanese):

0.9% - South Asia (should be about 0.4%)

1.7% - non-Arab Africa (should be about 0.4%)

2.2% - for Indigenous Australians – 50% of whom are Children - it should be 0.4%; for White Australians it is a “world best” 0.7%)

2.4% - Indigenous Australians in the Northern Territory

2.5% - for Sheep in pre-drought paddocks on Australian farms

2.7% - for under-5 year old infants in US Coalition-Australia-occupied Iraq

5.7% - for under-5 year old infants in US-Coalition-Australia-occupied Afghanistan.

10% – annual death rate of Australian POWs of the Japanese in WW2.

### **Post-invasion excess deaths (avoidable deaths, deaths that did not have to happen):**

0.3 million – Occupied Palestinian Territory

0.9 million - Occupied Iraqi Territory

2.1 million – Occupied Afghan Territory
